

## Official Statement: Compliance with NDAA Section 889

The Board of EMBENTION SISTEMAS INTELIGENTES S.A., company dedicated to the “Design, develop, manufacture and technical support of autopilots and critical electronic systems“, through this present document, has the subject to establish that our products met the stringent requirements set forth in the National Defense Authorization Act (NDAA) Section 889.

As an innovative Spanish company in the field of avionics with 17 years of activity, we have consistently demonstrated our commitment to delivering high-quality, reliable, and secure solutions for the aerospace industry. This compliance ensures that **Veronte systems meet the standards listed by the NDAA, further establishing our reputation as a trusted provider of cutting-edge technology for UAVs and eVTOLs in the United States of America** where it foresees to expand further its activities.

All of Embention’s Veronte ecosystem products can be used as NDAA Section 889 compliant systems.

Embention's NDAA-compliant solutions are designed to enhance the safety, efficiency, and performance of UAVs and eVTOLs, making them ideal for a wide range of applications including defense, commercial, and industrial sectors. By meeting the NDAA requirements, we ensure our products are suitable for use in U.S. government projects, continuing to open new opportunities for collaboration and growth.
